The Grantee must, at the request of the State, execute all papers and perform all other acts necessary to transfer or record the State's ownership interest in the Works and Documents.

Notwithstanding Clause 9, the Grantee will indemnify; defend, to the extent permitted by the Attorney General; and hold harmless the State, at the Grantee's expense, from any action or claim brought against the State to the extent that it is based on a claim that all or part of the Works or Documents infringe upon the intellectual property rights of others. The Grantee will be responsible for payment of any and all such claims, demands, obligations, liabilities, costs, and damages, including but not limited to, attorney fees. If such a claim or action arises, or in the Grantee's or the State's opinion is likely to arise, the Grantee must, at the State's discretion, either procure for the State the right or license to use the intellectual property rights at issue or replace or modify the allegedly infringing Works or Documents as necessary and appropriate to obviate the infringement claim. The State may take action to protect the interests of the State of Minnesota, including the refusal to disburse additional funds and requiring the return of all or part of the funds already disbursed.

15.2 Termination by the Commissioner of Administration.

The Commissioner of Administration may immediately and unilaterally terminate this Grant Contract Agreement if further performance under the agreement would not serve agency purposes or performance under the Grant Contract Agreement is not in the best interest of the State.

15.3 Termination for Insufficient Funding.

The State may immediately terminate this Grant Contract Agreement if it does not obtain funding from the Minnesota Legislature, or other funding source; or if funding cannot be continued at a level sufficient to allow for the payment of the services addressed within this Grant Contract Agreement. Termination must be by written notice to the Grantee. The State is not obligated to pay for any services that are provided after notice and effective date of termination. However, the Grantee will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed to the extent that dedicated funds are available.

In the event of temporary lack of funding or appropriation, the State may pause its obligations under this Grant Contract Agreement without terminating it. This pause will be for the duration of the lack of funding or appropriation and shall not be considered a termination of the Grant Contract Agreement. The Grantee will be notified in writing of the temporary pause, and the Grantee's ability to provide services may be temporarily suspended during this period. The State will provide reasonable notice to the Grantee of the lack of funding or appropriation and shall notify the Grantee once funding is restored or appropriated, at which point the provision of services under the Grant Contract Agreement may resume.

The State will not be assessed any penalty if the Grant Contract Agreement is terminated due to insufficient funding. The State must provide the Grantee notice of the lack of funding within a reasonable time of the State's receiving notice.

These identification numbers may be used in the enforcement of federal and state tax laws which could result in action requiring the Grantee to file state tax returns and pay delinquent state tax liabilities, if any.

18 Geospatial Data

Geospatial data and information must include compliant metadata: [Minnesota Geographic Metadata Guidelines](#) or the North American Profile of the ISO ([International Organization for Standardization](#)) 19115. Mississippi River-Sartell Watershed Landscape Stewardship Plan

Morrison County SWCD

Scope of Work

This scope of work supports the implementation of the DNR BWSR Private Forest Management (PFM) Partnership and its Memorandum of Understanding (MOU). It supports the integration of landscape stewardship plan (LSP) information into comprehensive watershed management plans developed through the BWSR One Watershed, One Plan Program as provided by authorities in Minnesota Statutes, Chapter 103B. The grantee will subcontract the GIS and plan writing work for preparing the landscape stewardship plan using \$13,000 of funds from this contract with MN DNR Forestry. This amount is being matched by \$13,000 from the 1W1P planning grant funds through BWSR. The following scope of work and budget below covers the development of the Mississippi River-Sartell watershed-based landscape stewardship plan (LSP).

Task 1: GIS Analysis

- **Overall Watershed Mapping (HUC08):** Maps will be prepared at the HUC 8 scale of the following: protection/restoration classifications; elevation; historic and current land cover; geomorphology; ECS section, subsection and land type associations; soils, slope, proximity to conveyance systems; land ownership; forestland protection; forest stewardship; native plant communities; forest species abundance; source water protection areas; marginal agricultural lands potential reforestation areas; and relevant modeling information from state and federal partners, which includes: Forests for the Future priorities, Designated Trout Lakes and Streams, Water Quality Trends, Outstanding Resources, Lakes of Biological Significance, Lakes of Phosphorus Sensitivity, Growth Patterns, Forest Disturbance/Conversion, Agricultural Conversion Risk, Protected Lands, Disturbed Lands, TNC reforestation data, and other maps as needed for the LSP.
- **Subwatershed Mapping (HUC10):** Individual sub-watershed maps will be prepared for each of the sub-watersheds (HUC10 scale) for the following subjects: Elevation, Geomorphology, Land Cover (past, present, future/potential native plant communities), Water Quality Trends, Protected Lands, Source Water Protection, drained wetlands, and other maps similar to those prepared for the other LSPs.
- **Minor Watershed Mapping (HUC14):** Individual minor watershed protection and & RAQ scoring maps and corresponding 11x17" atlas sheets will be prepared for each of the minor watersheds. Protection thermometers and needles will also be prepared for each minor (or group of minors if similar). The atlases will be conducted similar to Appendix 1 of the other LSPs.
- **Online RAQ webapp:** An online RAQ webapp using ArcGIS online will also be prepared similar to other LSPs.
- **Data Tables:** A landowner table will also be prepared with private landowner contact information (those over 5 acres), parcel information, RAQ score, land value, conservation/forestry program enrollment, and other related fields. A spreadsheet comparing the relevant features of each sub-watershed and minor watershed will be prepared, including protection data, potential to protect, and costs for protection. Data on protection, forestry, quality resources, and risk will be summarized by minor watershed and subwatershed to support the planning process and included in the LSP/appendix.

Task 2: Watershed Based Landscape Stewardship Plans

- **Research and Analysis.** Research forest management topics as directed by the project staff team. Collect and organize relevant data, maps, studies and reports. Prepare background and technical support documents to be used in the landscape stewardship planning processes.
- **Meeting Agendas and Summaries.** Assist the project staff team in preparing meeting agendas. Prepare meeting summaries and assist the project staff team in the follow up requests from the planning team meetings.
- **Planning Team Input.** Integrate input from the following: 1) LSP planning teams; 2) the supporting GIS analysis, maps and data; 3) guidance in the MFRC landscape plans; 4) information and knowledge from the WRAPs and comprehensive local water plans; 5) guidance in the funding plans including the State Forest Action Plan, 25-Year LSOHC Forest Habitat Vision, etc. and 6) other relevant documents and programs as identified by the project staff team.
- **Landscape Stewardship Plan Documents.** Develop draft and final landscape stewardship plans and appendices for each watershed.
- **Public Comments.** Assist the project staff team distribute, collect, compile and respond to public comments on the draft plans.
- **Plan Summaries.** Prepare a two-page plan summary for each landscape stewardship plan.
- **Presentation.** Develop a powerpoint presentation for that summarizes the context of the scales of watersheds (HUC 8, 10 and 14), the vision and priority actions and tasks in the landscape stewardship plan, the minor watershed/forest management methodologies, and targeted areas to promote increased forest management work.

Deliverables:
