INDEPENDENT AUDITOR'S REPORT

Board of Supervisors
Morrison Soil and Water Conservation District
Little Falls, Minnesota

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and the General Fund of Morrison Soil and Water Conservation District, as of and for the year ended December 31, 2021, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the General Fund of Morrison Soil and Water Conservation District, as of December 31, 2021, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Morrison Soil and Water Conservation District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Morrison Soil and Water Conservation District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Morrison Soil and Water Conservation District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Morrison Soil and Water Conservation District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Morrison Soil and Water Conservation District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Although not a part of the basic financial statements, such missing information, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule on page 20 and defined benefit pension plan schedules on page 21 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Morrison Soil and Water Conservation District's basic financial statements. The introductory section is presented for purposes of additional analysis and is not a required part of the financial statements.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 25, 2022, on our consideration of Morrison Soil and Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Morrison Soil and Water Conservation District's internal control over financial reporting and compliance.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Morrison Soil and Water Conservation District (the District) have been prepared in accordance with generally accepted accounting principles (GAAP) for the year ended December 31, 2021. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The significant accounting policies used by the District are discussed below.

Financial Reporting Entity

The Morrison Soil and Water Conservation District is organized under the provisions of Minnesota Statutes Chapter 103C. The District is governed by a Board of Supervisors, nominated by, and elected to four-year terms by the voters of Morrison County.

The purpose of the District is to assist land occupiers in applying practices for the conservation of soil and water resources. These practices are intended to control wind and water erosion, pollution of lakes and streams, and damage to wetlands and wildlife habitats.

As required by generally accepted accounting principles, consideration has been given to other organizations that should be included in the District's financial statements for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. There are no organizations that should be presented with the District.

Basic Financial Statements

Basic financial statements include information on the District's activities as a whole and information on the individual fund of the District. These separate presentations are reported in different columns. Each of the statements starts with a column of information based on activities of the General Fund and reconciles it to a column that reports the "governmental activities" of the District as a whole.

Measurement Focus and Basis of Accounting

The governmental activities are reported using the economic resources measurement focus and the accrual basis of accounting, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The District's net position is reported as restricted and unrestricted. The statement of activities demonstrates the degree to which the expenses of the District are offset by revenues.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become both measurable and available. The District considers all revenues to be available if they are collected within 60 days after the end of the current period. Charges for services and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources, when applicable.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance

Cash

Cash consists of three checking accounts and a savings account.

Accounts Receivables and Due from Other Governments

Receivables are collectible within one year. The financial statements contain no allowance for uncollectible accounts. Uncollectible accounts due for receivables are recognized as bad debts at the time information becomes available that indicates the particular receivable is uncollectible. These amounts are not considered to be material in relation to the financial position or operations of the fund.

Due from other governments are recorded for state, county, and local grant amounts that were received after year-end and all eligibility requirements have been met.

Capital Assets

The cost of property and equipment is depreciated over the estimated useful lives of the related assets. Depreciation is computed on the straight-line method. For the purpose of computing depreciation, the useful life for Machinery and Equipment is 3 to 10 years, Vehicles are 10 years, and Office Equipment and Furniture is 5 to 15 years. The District uses the threshold of \$5,000 for capitalizing assets purchased.

Unearned Revenue

Unearned revenue is recorded for amounts of state, county, and local grants received prior to satisfying all eligibility requirements imposed by the providers.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (Continued)

Compensated Absences

Under the District's personnel policies, employees are granted vacation and sick leave pay in varying amounts based on their length of service. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements, and are payable with expendable available resources.

Payments for vacation and sick leave pay will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave pay liabilities at December 31, 2021 are determined on the basis of current salary rates and include salary related payments.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments, and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources

The financial statements for the District contain deferred outflows of resources. A deferred outflow of resources represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The District has one type of deferred outflow which is pension related.

Deferred Inflows of Resources

The financial statements for the District contain deferred inflows of resources. A deferred inflow of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of deferred inflow which is pension related.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (Continued)

Fund Balance

In the fund financial statements, governmental funds report components of fund balance to provide information about fund balance availability for appropriation. Nonspendable fund balance represents amounts that are inherently nonspendable or assets that are legally or contractually required to be maintained intact. Restricted fund balance represents amounts available for appropriation but intended for a specific use and is legally restricted by outside parties (statute, grantors, bond agreements, etc.). Committed fund balance represents constraints on spending that the government imposes upon itself by a high-level formal action prior to the close of the fiscal period. Assigned fund balance represents resources intended for spending for a purpose set by the government body itself or by some person or government body delegated to exercise such authority in accordance with the policy established by the Board. Unassigned fund balance is the residual classification for the District's General Fund and includes all spendable amounts not contained in the other classifications.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to use restricted first, then the unrestricted fund balance. When an expenditure is incurred for purposes for which committed, assigned, and unassigned fund balance amounts are available, it is the District's policy to use committed first, then assigned, and finally unassigned fund balance amounts.

Net Position

Net position represents the difference between assets, deferred outflows, liabilities, and deferred inflows in the government-wide statement of net position. Net investments in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statements when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Unrestricted net position is the residual classification for the Governmental Activities Fund and includes all spendable amounts not contained in the other classifications.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Explanation of Adjustments Column in Statements

Capital Assets: In the Statement of Net Position and Governmental Fund Balance Sheet, an adjustment is made if the District has capital assets. This adjustment equals the net book balance of capitalized assets as of the report date and reconciles to the amount reported in Note 3 on Capital Assets.

Long-Term Liabilities: In the Statement of Net Position and Governmental Fund Balance Sheet, an adjustment is made to reflect the total Compensated Absences and Net Pension Liability the District has as of the report date. See Note 5 on Long-Term Liabilities.

Depreciation, Net Pension Expense and Change in Compensated Absences for the year: In the Statement of Activities and Governmental Fund Revenues, Expenditures and Changes in Fund Balance, the adjustment equals the total depreciation for the year reported, plus or minus the net pension expense and the change in compensated absences between the reporting year and the previous year.

NOTE 2 – DEPOSITS

Minnesota Statutes §§118A.02 and 118A.04 authorize the District to designate a depository for public funds and to invest in Certificates of Deposit.

Custodial Credit Risk - Deposits

In the case of deposits, custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk and follows Minnesota Statutes for deposits.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 2 – DEPOSITS (CONTINUED)

Custodial Credit Risk - Deposits (Continued)

Minnesota Statute §118A.03 requires that all District deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledge must equal 110% of the deposits not covered by insurance or corporate surety bonds. Authorized collateral includes: U.S. government treasury bills, notes, or bonds; issues of U.S. government agency; general obligations of a state or local government rated “AA” or better; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and time deposits insured by a federal agency. Minnesota Statutes require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

Of the \$821,923 bank balance at December 31, 2021, \$261,629 was neither insured, collateralized nor covered by the FDIC.

NOTE 3 – CAPITAL ASSETS

Capital assets activity for the year ended December 31, 2021, was as follows:

	<u>Beginning</u>	<u>Addition</u>	<u>Deletion</u>	<u>Ending</u>
Equipment	\$ 136,094	\$ -	\$ -	\$ 136,094
Less: Accumulated Depreciation	88,848	11,012	-	99,860
Net Capital Assets	<u>\$ 47,246</u>			<u>\$ 36,234</u>

Current year depreciation is \$11,012.

NOTE 4 – UNEARNED REVENUE

Unearned revenue represents unearned advances from the Minnesota Board of Water and Soil Resources (BWSR), Federal, and County for administrative service grants and for the cost-share program. Revenues will be recognized when the related program expenditures are recorded. Unearned revenue for the year ended December 31, 2021, consisted of the following: BWSR Cost Share Program \$20,225; Local Capacity \$136,914; Buffer Law \$21,500; Long River 1W1P \$6,996; County Water Plan \$13,609; County Wetlands \$30,298; Agronomist Position NACD TA \$31,048; Total \$260,590.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 5 – LONG-TERM LIABILITIES

The following is a summary of changes in the District’s long-term liabilities for the year ended December 31, 2021:

	January 1, 2021	Increases	Decreases	December 31, 2021
Net Pension Liability	\$ 311,764	\$ -	\$ 106,782	\$ 204,982
Compensated Absences	46,147	-	2,318	43,829
Total	<u>\$ 357,911</u>	<u>\$ -</u>	<u>\$ 109,100</u>	<u>\$ 248,811</u>

Vacation and Sick Leave Pay

Vacation leave accrual varies from 8 to 16 hours per month. Sick leave accrual is 8 hours per month. The limit on the accumulation of vacation leave is 240 hours and the limit on the accumulation of sick leave is 800 hours. Upon termination of employment from the District, employees are paid accrued vacation leave. If employees have been with the District for at least 10 years, they will receive 25% of their accrued sick leave hours. If employees have been with the District for 25 years or more, they will receive up to 500 hours of accrued sick leave.

Compensated Absences Payable

The amount of the estimated obligation at December 31, 2021 was \$43,829. The District’s General Fund finances compensated absences when employees terminate their employment from the District.

NOTE 6 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; workers’ compensation claims; or natural disasters. The District has entered into an agreement with the Minnesota Counties Intergovernmental Trust (MCIT) to cover its liabilities for workers compensation and property and casualty. For other risks, the District carries commercial insurance. There were no significant reductions of insurance coverage from the prior year. There have been no settlements in excess of the District’s insurance coverage for any of the past three years.

NOTE 7 – DEFINED BENEFIT PENSION PLAN

Plan Description

The District participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA’s defined benefit pension plans are established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356. PERA’s defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 7 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Plan Description (Continued)

All full-time and certain part-time employees of the District are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent for each of the first 10 years of service and 1.7 percent for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2021 and the District was required to contribute 7.50 percent for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended December 31, 2021, were \$26,048. The District's contributions were equal to the required contributions as set by state statute.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 7 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Costs

At December 31, 2021, the District reported a liability of \$204,982 for its proportionate share of the General Employees Fund’s net pension liability. The District’s net pension liability reflected a reduction due to the State of Minnesota’s contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the state’s contribution meets the definition of a special funding situation. The State of Minnesota’s proportionate share of the net pension liability associated with the District totaled \$6,327.

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportionate share of the net pension liability was based on the District’s contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2020 through June 30, 2021, relative to the total employer contributions received from all of PERA’s participating employers. The District’s proportionate share was .0048 percent at the end of the measurement period and .0052 percent for the beginning of the period.

District's proportionate share of the net pension liability	\$	204,982
State of Minnesota's proportionate share of the net pension liability associated with the District		6,327
Total	\$	211,309

For the year ended December 31, 2021, the District recognized a pension credit of \$29,382 for its proportionate share of the General Employees Plan’s pension expense. In addition, the District recognized an additional \$511 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota’s contribution of \$16 million to the General Employees Fund.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 7 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Costs (Continued)

At December 31, 2021, the District reported its proportionate share of the General Employees Plan’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 1,753	\$ 6,333
Changes in actuarial assumptions	125,157	4,822
Net collective difference between projected and actual investment earnings	-	166,149
Changes in Proportion	19,545	19,809
Contributions paid to PERA subsequent to the measurement date	13,364	-
Total	\$ 159,819	\$ 197,113

The \$13,364 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	Pension Expense Amount
2022	\$ 5,282
2023	(3,521)
2024	(5,865)
2025	(46,554)

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 7 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Long-Term Expected Return on Investment

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (%)	Long-Term Expected Real Rate of Return (%)
Domestic Equity	33.5	5.10
International Equity	16.5	5.30
Fixed Income	25.0	0.75
Private Markets	25.0	5.90
Total	100.00	

Actuarial Methods and Assumptions

The total pension liability in the June 30, 2021, actuarial valuation was determined using an individual entry-age normal actuarial cost method. The long-term rate of return on pension plan investments used in the determination of the total liability is 6.50 percent. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.50 percent was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25 percent for the General Employees Plan. Benefit increases after retirement are assumed to be 1.25 percent for the General Employees Plan.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25 percent after one year of service to 3.0 percent after 29 years of service and 6.0 percent per year thereafter.

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. The tables are adjusted slightly to fit PERA’s experience.

Actuarial assumptions for the General Employees Plan are reviewed every four years. The most recent four-year experience study for the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020, actuarial valuation.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 7 – DEFINED BENEFIT PENSION PLAN (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability in 2021 was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liability Sensitivity

The following presents the District’s proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

	1% Decrease in Discount Rate (5.50%)	Current Discount Rate (6.50%)	1% Increase in Discount Rate (7.50%)
District's proportionate share of the GERF net pension liability:	\$ 418,058	\$ 204,982	\$ 30,140

Pension Plan Fiduciary Net Position

Detailed information about each pension plan’s fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

NOTE 8 – OPERATING LEASES

The District leases office space on a yearly basis. Under the current agreement, total costs for 2020 were \$11,250.

NOTE 9 – COMMITMENTS AND CONTINGENT LIABILITIES

The District is not aware of any existing or pending lawsuits, claims or other actions in which the District is a defendant.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
GENERAL EMPLOYEE RETIREMENT FUND
DECEMBER 31, 2021**

NOTE 1 – CHANGES IN SIGNIFICANT PLAN PROVISIONS, ACTUARIAL METHODS, AND ACTUARIAL ASSUMPTIONS

2021 -

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020 -

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for year 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent Joint & Survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent Joint & Survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 - The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and non-vested deferred members. The revised CSA loads are now 0.00 percent for active member liability, 15.00 percent for vested deferred member liability and 3.00 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years to 1.00 percent per year through 2044 and 2.50 percent per year thereafter.

2016 - The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035 and 2.50 percent per year thereafter to 1.00 percent per year for all future years. The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate was changed from 7.90 percent to 7.50 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030 and 2.50 percent per year thereafter to 1.00 percent per year through 2035 and 2.50 percent per year thereafter.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
GENERAL EMPLOYEE RETIREMENT FUND (CONTINUED)
DECEMBER 31, 2021**

**NOTE 1 – CHANGES IN SIGNIFICANT PLAN PROVISIONS, ACTUARIAL METHODS, AND ACTUARIAL ASSUMPTIONS
(CONTINUED)**

2021 - There were no changes in plan provisions since the previous valuation.

2020 - Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023 and 0.00 percent after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 - The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024. Interest credited on member contributions decreased from 4.00 to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Contribution stabilizer provisions were repealed. Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90, disability benefit recipients, or survivors. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - The State's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter. The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Each fall, the Board of Supervisors adopts an annual budget for the following year for the General Fund. Any modifications in the adopted budget can be made upon request of and approval by the Board of Supervisors. All annual appropriations lapse at fiscal year-end. Legal budgetary control is at the fund level.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

To the Board of Supervisors
Morrison Soil and Water Conservation District
Little Falls, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Morrison Soil and Water Conservation District as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Morrison Soil and Water Conservation District's basic financial statements, and have issued our report thereon dated August 25, 2022.

In connection with our audit, we noted that the Morrison Soil and Water Conservation District failed to comply with provisions of the depositories of public funds and public investments of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions*, promulgated by the State Auditor pursuant to Minnesota Statutes §6.65, insofar as they relate to accounting matters as described in the Schedule of Findings and Responses as item 2021-004. Also, in connection with our audit, nothing came to our attention that caused us to believe that Morrison Soil and Water Conservation District failed to comply with the provisions of the contracting – bid laws, conflicts of interest, claims and disbursements, and miscellaneous provisions sections of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions*, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures; other matters may have come to our attention regarding the Morrison Soil and Water Conservation District's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

August 25, 2022

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
Morrison Soil and Water Conservation District
Little Falls, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Morrison Soil and Water Conservation District as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Morrison Soil and Water Conservation District's basic financial statements, and have issued our report thereon dated August 25, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Morrison Soil and Water Conservation District's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Morrison Soil and Water Conservation District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Morrison Soil and Water Conservation District's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying Schedule of Findings and Recommendations as items 2021-001, 2021-002, 2021-003, and 2021-004, that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Morrison Soil and Water Conservation District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Morrison Soil and Water Conservation District's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's responses to the internal control findings identified in our audit and described in the accompanying Schedule of Findings and Responses. The Morrison Soil and Water Conservation District's responses were not subjected to the other auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Peterson Company Ltd

Waconia, Minnesota

August 25, 2022

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
SCHEDULE OF FINDINGS AND RECOMMENDATIONS
DECEMBER 31, 2021**

2021-001: Segregation of Duties

Criteria: Generally, a system of internal control contemplates separation of duties such that no individual has responsibility to execute a transaction, has physical access to the related assets, and has responsibility or authority to record the transaction.

Condition and Context: Substantially all accounting procedures are performed by one person.

Prior Year Finding: Yes, 2020-001.

Cause: This condition is common to organizations of this size due to the limited number of staff.

Effect: The lack of an ideal segregation of duties subjects the District to a higher risk that errors or fraud could occur and not be detected in a timely manner.

Recommendation: Any modification of internal controls in this area must be viewed from a cost/benefit perspective.

Management Response: The District has adequate policies and procedures in place to compensate for the lack of segregation of duties, including having all disbursements approved by the Board of Supervisors.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
SCHEDULE OF FINDINGS AND RECOMMENDATIONS (CONTINUED)
DECEMBER 31, 2021**

2021-002: Financial Statement Presentation

Criteria: The District's management is responsible for establishing and maintaining internal controls, including monitoring, and for the fair presentation of the financial statements in accordance with generally accepted accounting principles.

Condition and Context: As part of the audit, management requested us to prepare a draft of the financial statements, including the related notes to the financial statements. Management has accepted responsibility for the financial statements and reviewed them.

Cause: The District has a limited number of personnel with financial reporting experience.

Effect: The design of the controls over the financial reporting process would affect the ability of the District to report its financial data consistently with the assertions of the management in the financial statements.

Recommendation: We recommend that the District be aware of the requirements for fair presentation of the financial statements in accordance with the generally accepted accounting principles. Should the District elect, based upon an analysis of costs and benefits, to establish the full oversight of the financial statement preparation of an appropriate level, we suggest management establish effective review policies and procedures including but not limited to the following: reconciling general ledger amounts to the draft financial statements; review of all supporting documentation and explanations for journal entries proposed by us; complete the disclosure checklist; review and approval of schedules and calculations supporting the amounts included in the notes to the financial statements; apply analytic procedures to the draft financial statements; and perform other procedures considered necessary by management.

Management Response: The District understands that this is required communications for the preparation of the financial statements.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
SCHEDULE OF FINDINGS AND RECOMMENDATIONS (CONTINUED)
DECEMBER 31, 2021**

2021-003: Audit Adjustments

Criteria: The District's management is responsible for establishing and maintaining internal controls for the proper recording of all the District's accounting transactions, including account coding, reporting of accruals, and net position.

Condition and Context: As part of the audit, we proposed material adjustments and reclassifying transactions to the proper accounts and preparing note disclosures. Management has reviewed and approved the audit adjustments.

Cause: The District has a limited number of personnel with financial reporting experience.

Effect: The design of the internal controls over recording transactions and year-end accruals limits the ability of the District to provide accurate accrual basis financial information.

Recommendation: We recommend that District management be constantly aware of all procedures and processes involved in recording transactions, accruals, and reclassifications and develop internal control policies to ensure proper recording of these items.

Management Response: The District will continue to work at eliminating the need for audit adjustments.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
SCHEDULE OF FINDINGS AND RECOMMENDATIONS (CONTINUED)
DECEMBER 31, 2021**

2021-004: Deficiencies in Collateral for Deposits

Criteria: Minnesota Statute §118A.03 provides certain specific collateral requirements for deposits as follows:

118A.03 WHEN AND WHAT COLLATERAL REQUIRED.

Subdivision 1. For deposits beyond insurance.

To the extent that funds on deposit at the close of the financial institution's banking day exceed available federal deposit insurance, the government entity shall require the financial institution to furnish collateral security or a corporate surety bond executed by a company authorized to do business in the state. For the purposes of this section, "banking day" has the meaning given in Federal Reserve Board Regulation CC, Code of Federal Regulations, title 12, section 229.2(f), and incorporates a financial institution's cutoff hour established under section 336.4-108.

Subdivision 2. In lieu of surety bond.

The following are the allowable forms of collateral in lieu of a corporate surety bond:

- (1) United States government Treasury bills, Treasury notes, Treasury bonds;
- (2) Issues of United States government agencies and instrumentalities as quoted by a recognized industry quotation service available to the government entity;
- (3) General obligation securities of any state or local government with taxing powers which is rated "A" or better by a national bond rating service, or revenue obligation securities of any state or local government with taxing powers which is rated "AA" or better by a national bond rating service;
- (4) General obligation securities of a local government with taxing powers may be pledged as collateral against funds deposited by that same local government entity;
- (5) Irrevocable standby letters of credit issued by Federal Home Loan Banks to a municipality accompanied by written evidence that the bank's public debt is rated "AA" or better by Moody's Investors Service, Inc., or Standard & Poor's Corporation; and
- (6) Time deposits that are fully insured by any federal agency.

Subdivision 3. Amount.

The total amount of the collateral computed at its market value shall be at least ten percent more than the amount on deposit at the close of the financial institution's banking day, except that where the collateral is irrevocable standby letters of credit issued by Federal Home Loan Banks, the amount of collateral shall be at least equal to the amount on deposit at the close of the financial institution's banking day. The financial institution may furnish both a surety bond and collateral aggregating the required amount.

**MORRISON SOIL AND WATER CONSERVATION DISTRICT
SCHEDULE OF FINDINGS AND RECOMMENDATIONS (CONTINUED)
DECEMBER 31, 2021**

Subdivision 4. Assignment.

Any collateral pledged shall be accompanied by a written assignment to the government entity from the financial institution. The written assignment shall recite that, upon default, the financial institution shall release to the government entity on demand, free of exchange or any other charges, the collateral pledged. Interest earned on assigned collateral will be remitted to the financial institution so long as it is not in default. The government entity may sell the collateral to recover the amount due. Any surplus from the sale of the collateral shall be payable to the financial institution, its assigns, or both.

Subdivision 5. Withdrawal of excess collateral.

A financial institution may withdraw excess collateral or substitute other collateral after giving written notice to the government entity and receiving confirmation. The authority to return any delivered and assigned collateral rests with the government entity.

Subdivision 6. Default.

For purposes of this section, default on the part of the financial institution includes, but is not limited to, failure to make interest payments when due, failure to promptly deliver upon demand all money on deposit, less any early withdrawal penalty that may be required in connection with the withdrawal of a time deposit, or closure of the depository. If a financial institution closes, all deposits shall be immediately due and payable. It shall not be a default under this subdivision to require prior notice of withdrawal if such notice is required as a condition of withdrawal by applicable federal law or regulation.

Subdivision 7. Safekeeping.

All collateral shall be placed in safekeeping in a restricted account at a Federal Reserve Bank, or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The selection shall be approved by the government entity.

Condition and Context: At December 31, 2021, the District held deposits of \$821,923. Deposits up to \$250,000 are insured by the FDIC. Deposits require collateral of at least ten percent more than the amount on deposit in excess of that covered by FDIC insurance. The collateral refund was \$287,792 (\$261,629 X 110%). The District was unable to provide evidence that such deposits were properly collateralized in accordance with State Statutes.

Prior Year Finding: No.

Cause: Unknown.

Effect: The effect of noncompliance is not determinable.

Recommendation: We recommend the District obtain sufficient collateral to comply with Minnesota Statute 118A.03.

Management Response: Management has resolved the collateral shortfall at their one bank in July 2022.
